

Name of the indicator	2.4 Agricultural Orientation Index for government expenditures (AOI)
Sustainable Development Goal	Goal 2. Zero hunger
Target	-
Definition	Share of central government expenditure allocated to agriculture in total central government expenditure, related to the share of agriculture in GDP.
Unit	-
Available dimensions	total
Methodological explanations	<p>Agriculture Share of Government Expenditures means Central Government Expenditures on Agriculture related to Total Central Government Outlays (according to Classification of Functions of Government - COFOG).</p> <p>Agriculture Share of GDP means Agriculture Value Added in relation to gross value added in section Agriculture (i.e. Division A - Agriculture, forestry, fishing and hunting of PKD 2007 , related to value of GDP, according to ESA2010).</p> <p>Gross domestic product (GDP) illustrates the final result of the activity of all entities of the national economy (resident producer units – domestic) in a given year. The exact definition and methodology for calculating GDP is contained in the regulation (EU) No 549/2013 of the European Parliament and of the Council of 21 May 2013 on the European system of national and regional accounts in the European Union (ESA 2010).</p> <p>An Agriculture Orientation Index (AOI) greater than 1 reflects a higher orientation towards the agriculture sector, which receives a higher share of government spending relative to its contribution to economic value added. An AOI less than 1 reflects a lower orientation to agriculture, while an AOI = 1 reflects neutrality in a government orientation to the agriculture sector.</p>
