Methodological explanations	<p>In Poland, the role of the National Statistical Plan is performed by the Statistical survey program of official statistics</p> <p><b>Statistical survey program of official statistics (PBSSP)</b> is a specification that establishes topical, objective and subjective scope of statistical survey and responsibilities connected therewith.</p> <p>Statistical survey program of official statistics is annually determined by the Council of Ministers, in way of a Regulation. Statistical Council determines the project of PBSSP for each consecutive year upon a proposal prepared by the President of Statistics Poland.</p> <p>The Regulation setting PBSSP determines for each survey:</p> <ol style="list-style-type: none"> <li>1. Topic and the body conducting survey</li> <li>2. Type of survey</li> <li>3. Subjective and objective scope</li> <li>4. Sources of statistical data</li> <li>5. Subjects obliged to provide information and transfer statistical data or voluntarily participating in survey (subjects of national economy and individuals who do not run business activities)</li> <li>6. Form of data transfer</li> <li>7. Frequency and date of data transfer</li> <li>8. Place of statistical data transfer (e.g. CSO, statistical office in voivodshaft, where the obliged subject is seated, statistical interviewer)</li> <li>9. Types of final statistical information and forms and dates of dissemination of final statistical information</li> <li>10. Costs and ways of financing</li> </ol> <p>Statistical surveys of official statistics are financed from <b>state budget funds</b>, included in part regarding the Statistics Poland, up to the amount annually determined in PBSSP.</p> <p>In case when PBSSP decides that another body of state administration shall conduct a survey, funds for its execution shall be included accordingly in the part that refers to that body.</p> <p>In extraordinary cases statistical survey included in the Program may be financed from non-budgetary sources, declared by institution conducting the survey.</p>
