

## Statistics for the SDGs - global indicators

<b>Name of the indicator</b>	<b>6.5.2 Proportion of transboundary basin area with an operational arrangement for water cooperation</b>
<b>Sustainable Development Goal</b>	Goal 6. Clear water and sanitation
<b>Target</b>	6.5 By 2030, implement integrated water resources management at all levels, including through transboundary cooperation as appropriate
<b>Definition</b>	The proportion of transboundary basin area with an operational arrangement for water cooperation.
<b>Unit</b>	percent [%]
<b>Available dimensions</b>	total
<b>Methodological explanations</b>	<p>The indicator is calculated as the ratio of the length of land border of Poland, with the effective bilateral and multilateral cooperation on transboundary waters, resulting from the fulfilment of international agreements and the total length of the land border of Poland, multiplied by 100.</p> <p>This ratio in subsequent years may change (increase) in connection with the planned establishment of cooperation with Belarus and Russia.</p>
<b>Data source</b>	National Water Management Authority
<b>Data availability</b>	Annual data since 2013.
<b>Notes</b>
