

## Statistics for the SDGs - indicators for national priorities

|                                     |  |
|-------------------------------------|--|
| <b>Name of the indicator</b>        | <b>16.2.a Regulatory quality</b>   |
| <b>Sustainable Development Goal</b> | Goal 16. Peace, justice and strong institutions  |
| <b>Priority</b>                     | Improvement in legislation quality and application of law  |
| <b>Definition</b>                   | Perceptions of the ability of the government to formulate and implement sound policies and regulations that permit and promote private sector development.   |
| <b>Unit</b>                         | points   |
| <b>Available dimensions</b>         | total  |
| <b>Methodological explanations</b>  | Regulatory quality is one of the six good governance indicators, so called Worldwide Governance Indicators (WGI). The other good governance indicators include: voice and accountability, political stability and absence of violence/ terrorism, government effectiveness, rule of law and control of corruption. The six aggregate indicators range from -2.5 to 2.5, with higher values corresponding to better governance. |
