| Available dimensions | total |
| Methodological explanations | <p>Entities of the national economy are understood as legal entities, i.e. legal persons, organisational units without legal personality and natural persons conducting economic activity.</p> <p>Entities of the maritime economy are entities of the national economy, whose basic activity is connected with broadly defined maritime economy. The basic activity is defined by using a measure e.g. added value, sales revenues, number of employed persons or activity provided in the statute as a basic one.</p> <p>Data on average paid employment in maritime economy refer to the number of full- and part-time employees converted to full-time equivalents, excluding persons employed abroad.</p> <p>Full-time paid employees are persons employed on a full-time basis, as defined by a given company or for a given position as well as persons who, in accordance with regulations, work a reduced work-time period, e.g. due to hazardous conditions or an extended work-time period (e.g. property caretaker).</p> <p>Part-time paid employees are persons, who in accordance with labour contracts, regularly work on a part-time basis, as defined by a given company or for a given position. Part-time paid employees in the main workplace are persons who declared that the given workplace is their main workplace.</p> |
