

Name of the indicator	<b>6.4.1 Change in water use efficiency over time</b>
Sustainable Development Goal	Goal 6. Clean water and sanitation
Target	6.4 By 2030, substantially increase water-use efficiency across all sectors and ensure sustainable withdrawals and supply of freshwater to address water scarcity and substantially reduce the number of people suffering from water scarcity
Definition	Water productivity is gross domestic product (GDP) divided by the total annual fresh water abstraction.
Unit	EUR per cubic metre [EUR/m <sup>3</sup> ]
Available dimensions	total
Methodological explanations	<p>Water productivity indicates how much economic output is produced per cubic meter of fresh water abstracted, in EUR per m<sup>3</sup> (available in Eurostat database also in PPS per m<sup>3</sup>). It serves as a measure of the efficiency of water use.</p> <p>Total fresh water abstraction includes water removed from any fresh water source, either permanently or temporarily. Mine water and drainage water as well as water abstractions from precipitation are included, whereas water used for hydroelectricity generation (in situ use) is excluded.</p> <p>For the calculation of water productivity Eurostat uses the GDP either in the unit of EUR in chain-linked volumes to the reference year 2010 at 2010 exchange rates or in the unit PPS (Purchasing Power Standard). The unit EUR in chain linked volumes allows observing the water productivity trends over time in a single geographic area, whereas the unit PPS allows to compare countries for the same year. Since GDP is measured in million EUR or million PPS and water abstraction in million cubic meters, water productivity is available in both EUR per m<sup>3</sup> and PPS per m<sup>3</sup>.</p>
Source of data	EUROSTAT
Data availability	Annual data; since 2010.
Notes	<p>Data for Poland for 2014 - estimated value.</p> <p>EUROSTAT database: <a href="http://ec.europa.eu/eurostat/tgm/table.do?tab=table&amp;init1&amp;language=en&amp;pcodet2020_rd210&amp;plugin1">http://ec.europa.eu/eurostat/tgm/table.do?tab=table&amp;init1&amp;language=en&amp;pcodet2020_rd210&amp;plugin1</a></p>
