| Data availability | Annual data; since 2011 |

Statistics for the SDGs - indicators for national priorities

Notes

Data from regional accounts are verified for routine revisions in annual national accounts, made according to a standard procedure in line with the requirements of fiscal notification. The time series of 2010-2017 differs in the scope of the data revisions implemented.

Data on the gross domestic product in the territorial cross-section according to the statistical division of Poland between 2000 and 2013, applicable from 1 January 2018, will be available after the second stage of implementation of the NUTS 2016 classification for regional accounts, which will be implemented by the end of 2019.
